

Privacy Policy

BetaParadise · Controller: BP (unregistered activity, Poland) · Effective 22 September 2026

1. Controller

The controller of personal data for the Service is **BP**, an unregistered sole activity of a natural person established in Poland. BP is not a registered company. For GDPR purposes BP is still a “controller” when it decides how account, payment and content data are used.

Contact: in-Service support / the contact channel published on the site. If a Data Protection Officer is later appointed, that name will be added here.

2. What we collect

Depending on how you use the Service:

- Account: email, username, password hash, role (Fan / Creator / Admin), locale, age-gate timestamp, optional payout addresses, optional Fan avatar or emoji, denial level, selected kink categories.
- Creator profile: display name, bio, avatar, cover, X.com URL, prices, verification photos (face plus handwritten card), AI-creator flag.
- Usage: posts, comments, votes, saves, messages (including paid media paths), training enrolments and proofs, GoonZone uploads, keyholding proofs, debt-contract statements, notifications, device/session cookies.
- Money: wallet balance, ledger lines, crypto invoices and payout requests as returned by the payment processor; we do not store full card numbers on BP servers.
- Technical: IP address, user-agent and basic logs needed for rate-limiting, fraud and security.

3. Why we process it (legal bases)

Under GDPR Art. 6 and, for sexual content, Art. 9 where you clearly give the data to an adult service:

- Contract (Art. 6(1)(b)): running your account, feed, chat, subscriptions, trainings and wallet.
- Legitimate interests (Art. 6(1)(f)): security, anti-bot limits, abuse review, improving the product. You may object.
- Consent (Art. 6(1)(a) and Art. 9(2)(a)): optional kinks, verification images, erotic uploads, newsletters if we add them. You can withdraw consent; that does not unwind a payment already made.
- Legal obligation (Art. 6(1)(c)): keeping records if Polish tax or criminal law later requires it, and cooperating with lawful requests about child-safety material.

4. Who sees it

Other users see only what your visibility settings allow (public text vs subscriber media, etc.). Creators see Fans who write first, subscribe, tip or pay them. Admins see verification queues and moderation tools.

Processors that may receive data: the crypto payment provider (e.g. NowPayments), DNS / reverse-proxy / CDN (e.g. Cloudflare if used), and the Operator’s own servers in the place they are hosted. We do not sell lists of users.

We may disclose data if required by Polish or EU law, or to protect someone’s vital interests (for example a credible threat of harm).

5. How long we keep it

Account data lasts while the account is open and for a short wind-down after deletion (generally up to 24 months unless a dispute or legal hold applies).

Ledger and payout records may be kept longer if tax rules require it.

Verification images: while the Creator is pending or approved and for a limited period after rejection or closure.

Training / keyholding proof files: deleted after review as designed, or when the feature's TTL expires.

Server logs: typically 90 days unless needed for an incident.

6. Your rights

If GDPR applies to you, you may request access, rectification, erasure, restriction, portability, and to object to legitimate-interest processing. You may withdraw consent. You may lodge a complaint with the President of the Personal Data Protection Office (UODO) in Poland or your local EU authority.

Use in-Service support to exercise rights. We will need to verify it is you. Some data must stay if we still have a contract or legal duty.

7. Cookies, security, transfers

We use a session cookie / sealed session to keep you logged in. That is necessary for the Service. We do not currently run advertising pixels. If that changes, this Policy will be updated.

Passwords are hashed. Media for private chat and proofs is stored outside the public web root where the product design allows. No system is perfectly secure; do not upload anything you cannot afford to leak.

If you access the Service from outside Poland, your data is processed on the Operator's machines (and processors) which may be in the EEA. We do not intend to send data to the United States except as a payment or CDN processor's standard clauses require.

8. Children and sensitive content

The Service is not directed at children. We do not knowingly collect data from anyone under 18. If you believe a minor has an account, tell us; we will delete it and preserve what the law requires.

Fetish and sexual data is special-category data. By posting or setting kinks you are volunteering that data to an adult platform. Do not send medical or government ID except the Creator verification card we ask for.

9. Changes

We may publish a new Privacy Policy PDF in the site footer. Material changes will also be mentioned in-product when practical. The date in the header / footer of the PDF is the effective date.

These documents are a working template for launch. Have a Polish lawyer review them before you rely on them in a dispute. Last updated 22 September 2026.
